

IKON DocSend Connector List

IKON DocSend® works in almost any office environment because it seamlessly integrates with many of the leading document management, cost/recovery, accounting, faxing and imaging systems through IKON DocSend connectors. With over 50 available connectors, it's easy to see why IKON DocSend is not only the most productive document capture, management and distribution solution available, but it is also the most flexible and connectable. For more information on several of the systems that IKON DocSend supports, see the list below. For more details on IKON DocSend's prepackaged connectors, please contact Mark McCuen at Mark.Mccuen@efi.com.
